About This Guide

This guide is designed as a resource to help you build your credit score as quickly as possible, by leveraging credit building accounts that are guaranteed approval. This is the same strategy that we use to help our clients drastically increase their credit scores in weeks, not years!

There are several factors that are considered when calculating a credit score. In this formula, **85%** of your overall score is based on how well you manage your accounts, while the remaining **15%** is based on the length of credit history (*see chart on next page*).

Because we are looking to boost your score as quickly as possible, we will focus on accounts that are going to yield you the best results, FAST! What's even better, is that all of the recommendations listed in this guide are guaranteed approval! That means, regardless of your past credit history, you're eligible to receive high limit credit accounts!

Disclaimer: This guide may contain affiliate links, which means, if you click on the link and make a purchase, we may receive a small commission. We only partner with companies who we feel provide the best services for our clients.

FICO SCORE BREAKDOWN

FICO Scores are calculated using various pieces of data listed on your credit report. The data is grouped into five categories including: payment history (35%), credit utilization rate (30%), length of credit history (15%), new credit (10%) and types of credit (10%).

Recommended Credit Boosting Accounts

Credit Monitoring : Know Your Score!

It's important to know what your credit score is before you begin this process. Here are our preferred vendors. They will provide you with 3 reports and 3 scores per month.

- [My Free Score Now](#)

Installment Accounts:

The following quick-reporting installment accounts are an excellent way to build credit by saving, instead of spending. Each month you'll deposit a pre-determined amount into a FDIC Insured Savings Account, and they'll report your deposits as payments on your credit report!

- [Self Lender](#)

Rent Reporting: Get Credit for Paying Your Rent On Time!

When looking to make a major purchase, it's important to show that you have a solid credit history. A great way to see an increase in your score is by including your on-time rent payments in your credit report! These score-boosting accounts are a great way to do so.

Recommended Credit Boosting Accounts Continued

Secured Credit Card: Your Deposit Is Your Limit

Secured credit cards are a great way to build your score quickly. Simply select an amount to fund the card, and the credit card company will report your payment history to all 3 bureaus! Can report in as quickly as 15 days. Your deposit is your credit limit.

 [Credit Builder Card](#)

Merchant Accounts : Revolving Credit Accounts

Below are a couple of my favorite recommendations for my clients looking to build strong credit portfolios, with higher limits. Score a \$5k credit limit with each of the vendors below; everyone is approved. Simply make the minimum purchase, and submit your credit application!

Easy peasy!

TAKE ACTION

The most important step in increasing your credit score is taking action right away! Time is of the essence. Now that we've identified the resources you'll need to see your score soar up to 100 + in a few short weeks, it's time to take action. Here's what you'll do:

- Pull Your 3 Bureau Credit Report
- Determine which recommended options will work best for your credit situation.
- Click on the provided links to submit your credit application.
- Once approved, be sure to make on-time payments each month.

You do **NOT** have to open an account from each category. If you are in the process of purchasing a home, check with your lender to see if opening new accounts will negatively impact your approval rate.

We do not guarantee that your score will improve by a specific number of points. Everyone's experience is unique.

Thank You!

Thank you for downloading our guide!
We are excited that you are taking the first steps towards improving your credit!

Keep in mind, this guide is only a starting point. If you require additional guidance, or an in-depth evaluation of your credit report, we can help!
